DATA CONCERNING

NORTH SCOTT COMMUNITY SCHOOL DISTRICT

Prepared by the Staff
of the Scott County
Superintendent's Office

INTRODUCTION

The following information concerning the North Scott Community School District was obtained from the following sources:

1. The County Superintendent's Annual Reports to the State Department of Public Instruction.
2. Teachers' Annual Reports to the Office of the Scott County Superintendent of Schools.
3. A Federal Survey made of the Scott County Schools about five years ago.
4. School Building Appraisals compiled by the Scott County Assessor, a Realtor and a local School District Officer, as provided in Section 297.16 of the Iowa School Laws.

The following pages contain the information regarding:

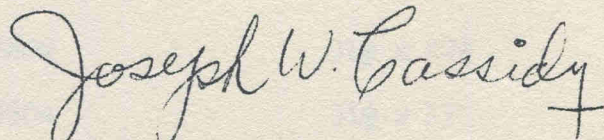

1. The annual enrollments for the last ten years, starting with the school year 1946-47 and ending with the school year 1955-56. These enrollments are listed either by townships or towns. They are not listed by building because this information was not available.

It should also be noted that several of the townships did have a kindergarten until the year 1952-53, then it was dropped.

2. Dates of Construction. Not all of these were available and a good many of them are estimated. These are noted in the report by an asterisk.
3. Dimensions of the Classrooms. Any school with two or more classrooms is noted by a double asterisk.

Although the Linn Grove Schools are not now a part of the North Scott Community School District, they were included in this report because it is assumed they will become part of the District in the very near future.

All of the information gathered for this report was made available by the Scott County Superintendent's Office. If any more information is desired, please contact the undersigned and he will be happy to furnish whatever information is needed.
